

MITTAKOLA SRINATH

Android Developer (Fresher)

+91-7574077947 mittakolasrinath1234@gmail.com linkedin.com/in/mittakola-srinath

Summary

I am a fresher with a strong interest in application and web development. I have hands-on experience in Android app development using Kotlin and basic knowledge of web technologies. I enjoy learning new skills by working on real-world projects. I am motivated, quick to learn, and eager to start my career in the IT field where I can grow my technical and professional skills.

Skills

Android Development: Kotlin, Android SDK, Activities, Fragments

UI: XML, Material Design

Database and Storage: SQLite, Room Database, Firebase

Tools: Android Studio, Git

Experience

Android App Developer Intern – Mindron Research Pvt. Ltd. May 2024 – December 2024

Android App Developer Tools Used: Kotlin, Android Studio, Firebase

- Developed Android applications using **Kotlin** following clean architecture and best coding practices.
- Designed responsive and user-friendly UI screens using **XML** and Material Design components.
- Integrated **Firebase Firestore, Realtime Database, and Firebase Storage** for managing user data and media files.
- Implemented **SQLite and Room Database** for local data storage and offline functionality.
- Debugged issues, optimized app performance, and collaborated with team members during real-time project development.

Projects

GemView – Product Media Management App | Kotlin, Firebase July 2024 – December 2024

- Developed an Android application to capture, manage, and organize product images and videos efficiently.
- Integrated **Firebase Storage** for secure upload and retrieval of images and videos.
- Used **Firebase Firestore** to store SKU-wise metadata and media references.

Weather Forecast Application | Kotlin, REST API January 2025 – January 2025

- Built an Android weather application that displays real-time and forecast weather data based on user location.
- Integrated a third-party **Weather API** using REST architecture to fetch live data.
- Displayed hourly and 15-day forecasts using **RecyclerView**.

Unit Converter Application | Kotlin February 2025 – February 2025

- Developed a unit converter Android app supporting length and temperature conversions.
- Designed a clean and simple UI using XML layouts and Material Design components.

Awards & Certifications

- **AI Tools Certification – BE10X:** Gained practical knowledge of modern AI tools for productivity, automation, and real-world applications.
- **Green Skills and AI – Edunet Foundation (Shell):** Learned fundamentals of green technologies, sustainability concepts, and the role of AI in environmental solutions.
- **Introduction to Prompt Engineering – Simplilearn SkillUp:** Learned the basics of writing effective prompts for AI models to improve response quality and task automation.

Education

Master of Computer Applications (MCA) 2024 – 2026

Sarvajanik College of Engineering and Technology (Surat) CGPA: 8.58 / 10

Bachelor of Computer Applications (BCA) 2021 – 2024

Bhagwan Mahavir University (Surat) CGPA: 7.86 / 10
